Subject: Background Work Plan
Study Area 08, NUSC Disposal Area
Naval Underwater Warfare Center, Middletown Rhode Island

Dear Mr. Frye:

Enclosed you will find four copies of the Final Work Plan for the Background Soil Investigation, prepared for the site referenced above. This work plan is a revision based on comments received from the USEPA and RIDEM on the draft final version provided by TtNUS in December 2003.

Comment responses were provided to the review parties on June 9, 2004 along with revised proposed sample stations. Because we have not received any comments on these responses, we presume that all outstanding questions have been addressed. We anticipate conducting field work the week of August 30, 2004. It is our understanding that sample analysis will be conducted under the ECC contract as was the site sample data in 2003.

If you have any questions regarding this material, please do not hesitate to contact me.

Very truly yours,

Stephen S. Parker
Project Manager
